Project Completions Look Up In Jan-March

At ₹3.8 lakh crore, project completions in Jan-March 2024 were the second highest ever, only behind pre-election quarter of March 2024, which witnessed over ₹4-lakh crore worth project completions. The robust performance in March quarter has propelled the total for FY25 to a record of over ₹10 lakh crore.

TIMES BUSINESS

Why the surge in completions

The surge in completions in the March 2024 quarter is largely because of some large long-gestation period projects finally getting completed.

The largest project completed in the quarter has been in the works for 21 years; the next for 15 years. These two account for 27% of total completions.

Sensex jumps over 750 pts on US-Iran peace talk hopes

Reclaims 79K Level | Broader Markets Also Clock Gains

Mumbai: Stock market advanced for the third consecutive day on Tuesday, with Sensex jumping by 753 points and broader Nifty closing above 24,500 following a drop in crude oil prices and hopes for progress on peace talks between Iran and the US.

The 30-share BSE Sensex jumped 753 points to settle at 79,275. During the day, it surged 647 points to 79,307.

The 50-share NSE Nifty climbed 212 points to end at 24,577.

Among the 30-stocks, the most by 6.0%, Hindustan Unilever, ICI Bank, Bajaj Finance, ICICI Bank and Axis Bank were the major winners.

Reliance Industries, Titan, Reliance Industries and NTPC were among the losers.

A TOTAL OF 2,531 STOCKS ADVANCED

benchmark, traded 0.8% lower at \$84.95 per barrel.

"Indian equity markets traded on a positive note, as investors positioned for a potential near-term de-escalation in West Asia. Energy markets remained in a consolidation phase, as traders balanced hopes of a near-term resolution and a potential reopening of the Strait of Hormuz against ongoing uncertainty around ceasefire negotiations," Pannudi R, CEO of Bank of India, an online trading and wealth tech firm, said.

Broader markets also advanced with the BSE Mid-Cap Select Index jumping 0.7% and Small Cap Select Index by 0.5%.

Among sectoral indices, FMCG rallied the most by 2.2%, followed by Realty (2.2%), Mid-Small Private Banks (2.1%), Private Banks (1.7%), Top 10 Banks (1.7%) and Banks (1.5%). Capital Goods emerged as the only laggard.

"With the ceasefire deadline arriving tomorrow, all eyes turn to the second round of US-Iran talks — while markets remain hopeful of progress, elevated tensions and uncertain parties make any negative surprise a key downside risk," Siddhartha Khemka — head of research, Wealth Management, Motilal Oswaal Financial Services, said. A total of 2,531 stocks advanced, while 1,750 declined and 102 remained unchanged on the BSE.

Rupee slips 28 paise to settle at 93.44 against \$

Mumbai: The rupee declined 28 paise to close at 93.44 against the US dollar on Tuesday, weighed down by steady American currency and volatile crude oil prices amid uncertainties over the progress of West Asia peace negotiations.

Positive domestic equity markets helped to boost local currency which also had some impact of the Reserve Bank's latest move to ease curbs on speculative bets in non-convertible forward markets, foreign exchange said.

The Reserve Bank on Monday partially withdrew directives that on April 1 to curb excessive speculation in the rupee. The banking regulator had capped the new open positions in non-convertible forward markets at \$100 million, mandating banks to comply by April 10.

Under revised directives, authorised dealers or banks can resume offering non-convertible forward contracts involving INR to resident or non-resident users, but must comply with certain restrictions on related party transactions. Also, the \$100-million cap in net open position is still effective.

At the interbank foreign exchange market, the rupee opened at 93.55 and fell to an intra-day low of 93.35 before ending the session 28 paise lower at 93.44 against the greenback.

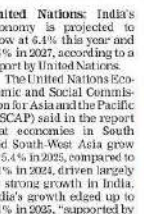

On Monday, the rupee settled with a loss of 27 paise at 93.36 against the US dollar. The currency had gained 7 paise in the preceding two sessions.

Anuj Chaudhary, research analyst at Mirae Asset Securities, said the rupee fell on uncertainty over US-Iran talks and a surge in crude oil prices. Although dollar also pressured the rupee, however, positive global markets countered the bearish sentiment.

Meanwhile, the dollar index, which gauges the greenback's strength against a basket of six currencies, rose 0.2% to 98.19.

India's eco likely to grow 6.4% this year, says UN

Projected To Expand 6.6% In 2027: Report

INFLATION PROJECTED TO BE 4.4% THIS YEAR

United Nations India's economy is projected to grow at 6.4% this year and 6.6% in 2027, according to a report by United Nations.

The United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP) said in the report that economies in South and South-West Asia grew by 5.4% in 2023, compared to 5.2% in 2022, driven largely by strong growth in India.

India's growth edged up to 7.4% in 2023, "supported by robust consumption, especially from the rural economy along with growth and services tax rate cuts and export fortification ahead of the US tariffs," the report, titled Economic and Social Survey of Asia and the Pacific 2024, said.

It said in India, economic activities moderated in the second half of 2023 as exports to the United States fell to 4.1% this year and 4.3% in 2022. The report said that FDI inflows to developing Asian and Pacific economies declined amid trade tensions and geopolitical uncertainty. NF for an increase of 0.6% in 2024, FDI to the region declined by 2% in 2023, even as global growth increased by 1.4%.

"Within the Asia-Pacific region, the countries that attracted the largest share of greenfield FDI in the first three quarters were India, Australia, the Republic of Korea and Kazakhstan with \$50 billion, \$30 billion, \$25 billion and \$21 billion in announced investments, respectively," it said.

Nestle India Q4 profit up 27% at ₹1,11cr

New Delhi: FMCG major Nestle India on Tuesday reported a 27.2% rise in consolidated net profit at ₹1,11.9 crore for the March quarter of FY25, boosted by record domestic sales.

The company had posted a consolidated net profit of ₹1,373 crore in the year-ago period. Nestle India said in a regulatory filing.

Revenue from operations in the fourth quarter stood at ₹6,746 crore as against ₹6,551 crore in the year-ago period. Total income, which includes other income, surged 22.7% to ₹6,703 crore in the March quarter.

Total expenses were 21% higher at ₹5,587 crore compared to the year-ago period.

"Nestle India delivered high double-digit growth and recorded its highest-ever domestic sales at ₹6,544 crore. This performance was powered by double-digit volume growth, driven over 56% increase in advertising spends, whilst delivering a healthy EBITDA margin of 18%," said the company's chairman and managing director Danish Tomy said. Nestle India's total sales, including exports, were at ₹6,724 crore in the March quarter up 25.4% year-on-year.

Gen Z churn fuels GCC backfilling surge: Report

Bengaluru: High attrition among Gen Z employees is driving a surge in backfilling across India's global capability centre (GCC) ecosystem, even as overall hiring demand witnessed a sharp rebound.

A report by Quesst Corp shows Gen Z tenure has dropped below 24 months, with companies facing a 40% replacement hiring rate, meaning nearly two in five roles are being refilled rather than newly created.

The churn is most visible in high-demand tech roles, where young professionals are switching jobs faster career progression and exposure to cutting-edge AI work. This has created a continuous cycle of hiring, training and replacement, adding pressure on companies already grappling with talent shortages.

GCC hiring saw a sharp recovery in the March quarter of FY25, with headcount expansion rising 12-14% quarter-on-quarter, more than double the 4-6% growth in the previous quarter.

The report showed that India's GCCs have expanded alongside hiring, with 2,150-2,200 active centres currently operational and the workforce projected to reach 2.5-2.7 million by 2030.

The rebound is being driven by a shift toward AI-led transformation, platform engineering and infrastructure, modernisation. Nearly 60% of new demand concentrated in AI, data and platform skill sets.

"The simultaneous growth in demand and ecosystem seats confirms that Q4 was not a seasonal uptick, but the beginning of a sustained recovery," said Kapil Joshi, CEO of Quesst IT Staffing.

Professional and shared services led the growth with a 16% sequential expansion in real estate, infrastructure and security emerged as the fastest-growing segment at around 10%, followed by construction and engineering at about 10%. Hospitality, travel and logistics continued their recovery with 15% growth, while telecom and media saw a relatively moderated 5% rise.

Large core sectors also re-entered the growth cycle. BFSI grew around 10%, QoQ, while manufacturing, automotive and energy expanded by 12%, supported by cyclical recovery and digital investments.

Technology and hardware hiring rose roughly 11%, as retail and e-commerce recorded about 10% growth.

REPLACEMENT HIRING SPIRALS

- Attrition surge
 - Gen Z tenure falls below 24 months
 - 40% hiring is replacement hiring
 - 2 in 5 roles are refilled, not new
- GCC hiring rebound
 - Hiring up 12-14% QoQ in Q4 FY25
 - Recovery led by AI-led transformation
- Skills in highest demand
 - 60% demand in AI, data, platform roles
 - 38-42% talent gap in AI, data, analytics
 - Strong demand for DevOps, Cloud Ops, cloud

Contract workers face job loss risks on fuel, input supply woes

New Delhi: Fuel and raw material supply constraints, which have forced shutdowns in certain segments of manufacturing, especially small businesses, may hurt contract workers and gig workers.

Some signs of strain are visible in certain sectors, including steel, automotive, textiles, pharma and food processing, where supply shortages are forcing shutdowns in certain segments of manufacturing, especially small businesses, may hurt contract workers and gig workers.

FEELING THE HEAT

- Some sectors such as steel, automotive, textiles, pharma are showing signs of strain
- Fuel supply, input cost and raw material shortage are affecting operations, say industry representatives and HR experts
- LPG crisis is forcing many restaurants, quick service restaurants and cloud kitchens to curtail operations or shut down temporarily
- Ceramics hubs, such as Kurur and glass clusters like Firozabad, have seen production slowdowns and even shutdowns, while operations in Agartala are impacted. In Moradabad's brassware cluster and Coimbatore's small foundries, rising input costs and weak demand, particularly for pumps and cast iron components, are compounding the stress. The textiles sector, too, is grappling with higher fuel costs
- Foundry units in the south have operated at nearly 50% capacity in March
- Paint cluster in Aurangabad is also facing disruptions
