CENTRE HAS RELEASED ₹70K CR SO FAR

Govt may provide ₹12-14k cr more for MGNREGS this fiscal

PRASANTA SAHU
New Delhi, January 5

WITH THE EXTRA allocation of ₹16,000 crore in the first supplementary demand for grants almost exhausted, the Centre may provide another ₹12000-14000 crore for the flagship Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS) in the revised estimate for the current fiscal in the budget on February 1, sources told *FE*.

The Centre has so far released ₹70,000 crore or 92% of the ₹76,143 crore provided in FY24 (₹60,000 crore in the Budget and ₹16,143 crore in the supplementary in December). For the whole of FY24, the total outlay for the scheme would likely be ₹88,000 crore to ₹90,000 crore.

As against the availability of ₹81,268 crore (including some writeback of funds from the previous year) as of January 5 of the current fiscal, the expenditure/releases stood at ₹83,303 crore, or 102.5% of the available funds for the MGNREGS.

Officials said fund availability was not an issue in the demand-driven scheme and additional funds through advances could be provided as and when required, to meet actual expenditure in the scheme.

Rampant misappropriation of funds allocated under the flagship scheme is one of the main triggers for the Centre to make a five-year-low provision of ₹60,000 crore in the FY24 budget for the jobs programme.

MGNREGS aims to provide at least 100 days of guaranteed wage employment in a financial year to every household in rural areas of the country, whose adult members volunteer to do unskilled manual work, mainly during off seasons.

The extra allocation of up to ₹30,000 crore (including first supplementary) for the scheme won't impact its fiscal deficit due to substantially higher tax revenues and non-tax revenues expected over the budget in FY24.

Also, there would be savings in many schemes, as many departments are unlikely to fully spend funds allocated to them for the year.

So far in FY24, 245.41 crore person days work have been generated and the number could touch 294 crore by March, the same as in F323.

According to official data, month-wise work demand has moderated from 337.18 crore in June to 176.75 crore in November 2023. It rose marginally to 199.44 crore in December.

In the meantime, the Centre is taking various initiatives to plug leakages, which some estimates suggest could be around 30% of the annual spending in the scheme.

From January 1, 2024, the government has made the Aadhaar-Based Payment System (ABPS) mandatory for payment of wages.

Under the ABPS, the Aadhaar of a worker is linked with her MGNREGS job card and bank account.

Direct benefit transfer (DBT) has saved an estimated 10% on wages on account of the deletion of duplicate, fake/non-existent, ineligible beneficiaries till March 2022.

Navy ship intercepts hijacked vessel in Arabian Sea, commandos start ops

Around a dozen Indians onboard MV Lila Norfolk

INDIAN NAVY'S MARINE commandos (MARCOS) boarded a hijacked Liberian-flagged vessel in the Arabian Sea Friday and were carrying out sanitisation operations.

The Navy said its warship INS Chennai – a Kolkata Class stealth guided-missile destroyer, it was on an anti-piracy patrol – intercepted the MV Lila Norfolk, a bulk carrier with around a dozen Indian crew members, at 3.15 pm Friday. The crew members were said to be locked inside the citadel of the hijacked vessel – a citadel refers to a designated area in a ship where the crew can seek protection in the event of a hijacking.

The MV Lila Norfolk had sent a message on the United Kingdom Maritime Trade Operations (UKMTO) portal, indicating that it had been boarded Thursday evening by five-six unknown armed personnel.

According to the Navy, the merchant vessel was kept under continuous surveillance using P-8I maritime patrol aircraft, Predator MQ9B UAVs and integral helos (helicopters on a ship) before MARCOS personnel on the warship boarded the vessel and began sanitisation operations.

The Navy said the aircraft flew over MV Lila Norfolk early Friday morning, established contact and ascertained the safety of the crew. It said INS Chennai, on anti-piracy patrolling duty, was diverted to assist the vessel.

The overall situation, the Navy said, was being closely monitored in coordination with other agencies in the area.

"The Indian Navy remains committed to ensuring safety of merchant shipping in the region along with international partners and friendly foreign countries," the Navy said in its statement.

This is the latest in a series of recent maritime incidents in the Arabian Sea. In December, the Indian Navy, responding to a piracy incident, had assisted a Malta-flagged vessel, MV Ruen, around 700 nautical miles from the Indian coast.

On December 23, a Liberian-flagged merchant vessel, MV Chem Pluto, carrying a crew of 22, 21 of them Indians, came under a drone attack around 220 nautical miles southwest of Porbandar, while it was on its way to New Mangalore.

Red Sea disruption: 'Costs spike, crisis may deepen'

DISRUPTIONS ALONG the Red Sea trade route have begun pushing up shipping and insurance costs as shippers have begun taking longer routes fearing further attacks, a senior government official said Friday.

This comes a day after Commerce Secretary Sunil Barthwal met shippers and exporters to assess the impact of the attacks on the critical Red Sea trade route. The official said the crisis could deepen going forward after the current level of inventory gets used up in a month's time.

"There is no shortage of containers but turnaround time has increased," the official said.

Oilmax to invest $100 mn in next 3 years, grow biz

Expects Duarmara field to start production by Sept

ARUNIMA BHARADWAJ
New Delhi, January 5

OILMAX ENERGY, A privately-held oil and gas company, plans to spend more than $100 million in the next three years in order to expand its operations, the company's founder, chairman and managing director Kapil Garg told FE. The company also expects its gas field in Duarmara, Assam, to begin production by September, thus adding to the domestic gas output of the country.

> The government has reportedly formed a committee of the SBI, HDFC and ICICI banks for a framework to finance oil and gas projects

"In the next three years, we are looking to spend more than $100 million as capex. So, for the current expansion plans as of now, we are fully funded," said Garg.

Other than Duarmara, the company owns two more fields in Assam - Amguri and Tiphuk. The Tiphuk field already has some wells and the company aims to start testing these by the end of the month.

"We have applied for regulatory permissions and are hoping that we can start testing these wells towards the end of this month," Garg said. "If the tests are successful, we can just start production in about six months." At present, the company's Amguri field produces 250,000 cubic meters of gas per day, which can go up to 750,000 cubic meters a day, while the Duarmara field produces 1 million cubic meters of gas per day. The Amguri field also produces 500 barrels a day of condensates (a crude oil-like liquid that comes out of the ground along with the gas).

"Tiphuk is at a very early stage but in phase 1, we anticipate it should be able to produce 0.1 cubic meters of gas per day," Garg said.

Garg also believes that the completion of the Indradhanush project — the Northeastern gas pipeline that is currently under construction — by November will likely help the company ramp up its production and transport it to other markets. The company's Indrora field in Gujarat produces 75 barrels of oil a day.

Garg hopes that it will cross 300 barrels a day output in the next three months and 750-1,000 barrels a day towards the end of this year.

In addition to its oil and gas fields under exploration, the company recently won a block of coal-bed methane in Chhattisgarh and aims to start its operations within six months after it receives all the environment and pollution board clearances.

Vibrant Gujarat: State govt hopes to sign record pacts

PRESS TRUST OF INDIA
New Delhi, January 5

THE GUJARAT GOVERNMENT expects to sign a record number of investment pacts in the upcoming Vibrant Gujarat Global Summit, although state officials remain non-committal on the participation of American electric car maker Tesla co-founder and CEO Elon Musk.

The biennial event, which is making a comeback this year after the Covid-19 pandemic-induced break, will be focussing on the theme 'Gateway to the Future', with a focus on futuristic technologies and emerging sectors like green hydrogen, electric mobility, semiconductor, space-related manufacturing and sustainability. The summit, to be held on January 10-12, will be inaugurated by Prime Minister Narendra Modi in Gandhinagar.

"This edition will see the maximum number of investments coming into the state compared to the previous Vibrant Gujarat summits," Gujarat Industrial Development Corporation vice-chairman and managing director Rahul Gupta told reporters here in an interaction.

He said the summit's 2019 edition witnessed a record 28,360 numbers of projects and MoUs (memorandum of understanding) signed. In 2017, it was 24,744, and in 2015, it was 21,304.

Asked about the participation of Musk, who has been widely reported to be attending the summit to announce investments to set up a manufacturing unit in the state, Gupta said there is no confirmation on it.

On whether Tesla has approached the state government to set up its manufacturing plant, he said, "Not to the best of my knowledge, the company has applied".

He, however, asserted Gujarat continues to be the most preferred destination for investments in electric vehicle manufacturing and its infrastructure.

Gupta said in the run-up to the event under the 'Vibrant Gujarat Vibrant Districts' programme held in October and November last year, the state has already signed over 2,600 MoUs with investment commitments of over ₹46,000 crore, mostly in traditional sectors like ceramics, textiles and food processing.

Already, over 1 lakh delegates have registered so far for this year's edition of the summit, he said, adding that 32 countries have been confirmed as partner countries as compared to 15 in the 2019 edition.

ROAD MAP

- To be held from **January 10-12**, the Vibrant Gujarat summit will focus on futuristic tech and emerging sectors
- Green hydrogen, electric mobility, semiconductor, space-related manufacturing and sustainability will be discussed

GAIL signs long-term LNG import deal with Vitol

PRESS TRUST OF INDIA
New Delhi, January 5

DEAL DETAILS

- GAIL will buy about 1 million tonne per annum of LNG from Vitol for 10 years starting 2026
- Vitol will deliver LNG from its global LNG portfolio to GAIL on a pan-India basis

INDIA'S BIGGEST GAS firm GAIL on Friday said it has signed a deal to buy about 1 million tonne per annum of LNG from Dutch energy trader Vitol for 10 years starting 2026.

"Under this deal, Vitol will deliver liquefied natural gas (LNG) from its global LNG portfolio to GAIL in India on a pan-India basis," the company said in a statement.

LNG is natural gas, that has been cooled down to liquid form for ease and safety of non-pressurised storage or transport.

GAIL will import LNG in cryogenic ships and turn it back into its gaseous state before piping it to users that may include power plants for generating electricity, fertilizer units for producing crop nutrients or city gas operators for selling to automobiles as CNG or piping to household kitchens for cooking.

The company said it and Vitol Asia Pte Ltd have signed a long-term LNG deal but did not give pricing and other commercial details.

"This long-term LNG deal with Vitol will augment GAIL's large LNG portfolio and will contribute to bridging India's demand and supply gap for natural gas," GAIL chairman and managing director Sandeep Kumar Gupta said.

India imports roughly half of its gas needs as local production is insufficient to meet demand.

Vitol CEO Russell Hardy said, "We are pleased to build on the existing relationship between Vitol and GAIL and to conclude this long-term LNG supply deal together. India is a significant and growing LNG market and we are excited to bring LNG supply from our global LNG portfolio to meet this rising natural gas demand."
