Non-Himachalis allowed to set up 1 to 5 MW solar power projects

TRIBUNE NEWS SERVICE

SHIMLA, FEBRUARY 26

Himurja, state government's nodal agency for renewable energy programmes, has opened the doors for all power producers to set up ground-mounted solar power projects having capacity ranging from 1 MW to 5 MW. "Until now, only the Himachalis were allowed to set up solar power projects up to 5 MW capacity. As per the directions of the government, now all interested power producers can apply for setting up projects having capacity from 1 to 5 MW," said a Himurja official. "This has been done to ensure quicker exploitation of solar power potential," he added.

The government has already declared that it intends to make Himachal Pradesh a "Green State" by 2025. Major areas of focus for the government in achieving this goal are the use of electric vehicles and solar power. The government has reportedly given Himurja the target of allotting projects having a combined capacity of 100 MW during this financial year.

Himurja has invited applications for setting up ground-mounted solar power projects of 250 KW to 5MW capacity. "These plants will be set up by the applicants on private or leased land. The applicants will have to undertake the work from concept to com-

missioning, including feasibility survey and investigation," the official said.

Out of total 100 MW capacity, 250 KW to 1 MW solar projects having 30 MW combined capacity would be reserved for bona fide Himachalis. "The remaining 70 MW capacity, as regards projects ranging from 1 MW to 5 MW, has been thrown open to all interested solar power producers," the official said.

The applicants will have to apply for these projects online. "They will have to deposit an application fee of Rs 10,000 for every project up to 1 MW capacity and Rs 1 lakh for every project ranging from 1 MW to 5 MW capacity," he said. The applicants, the official said, would have to furnish documents regarding the ownership of the land or the lease deed with the landowner where he intended to set up the project.

On way to hospital, woman delivers in ambulance in Una

UNA, FEBRUARY 26

A woman gave birth to a boy in an ambulance on the way to a hospital here in the early hours of Sunday, health department officials said.

Both the woman, Charanjeet, a resident of Guralpal village here, and her son are healthy, they said.

A Health Department spokesperson said a call was received on emergency helpline number 108 from Guralpal that a pregnant woman was unwell. An ambulance left for Guralpal, the spokesperson said.

Ambulance staff nurse Seema checked on the pregnant woman who was in labour. Seema immediately contacted the doctors and sought their advice. It was decided that the woman's delivery procedure would be conducted in the ambulance itself, the spokesperson said.

District in charge of 108 ambulances Pankaj Sharma said the mother and her child are healthy and under treatment at the Regional Hospital, Una. He also praised the ambulance staff for the woman's safe delivery. — TNS

Mandi-Manali travel to be safer

75% work of Pandoh bypass to Takoli stretch completed

MANDI, FEBRUARY 26

With a host of cross-section tunnels, four-laning of Pandoh bypass to Takoli on Kiratpur-Manali highway will provide all-weather and safe connectivity between Mandi and Kul-lu. This will reduce travel time from Mandi to Manali by more than 60 minutes.

According to official sources, the much-awaited Pandoh bypass to Takoli section of the Kiratpur-Manali Highway is likely to be dedicated to nation by March 2024. After nearly five years, nation's one of the most-favoured tourist destinations Manali is slated to get smooth connectivity.

Of the total 34-km length of Pandoh bypass to Takoli, 23.7 km has been handed over to the National Highways Authority of India (NHAI), while 10.3 km (approx) is under construction.

"The project includes construction of 10 tunnels, one elevated viaduct, three major bridges, 10 minor bridges and double-laning of more than 13 km highway with slope protection, culverts, retaining walls, drainage and many other features," said a project officer.

"The upgraded infrastructure will make road travel safer and more reliable, apart from reducing travel time from Mandi to Manali by more than an hour," he added.

Project manager Ranjit Kumar Singh said that "an average of 6,000 vehicles ply on this stretch every day. These include the vehicles of armed forces heading to border areas like Leh. The number is expected to rise significantly once the new all-weather connectivity is available."

"Till six years back, this was one of the most dangerous sections of the NH-21 between Chandigarh and Manali. Pandoh, 15 km from Mandi, to Aut was a frequent rock-fall area risking vehicles and often cutting off the highway. To ensure safety of motorists in this section, which became a high-risk zone, 10 tunnels were planned. Over 75 per cent of the project work has been completed. We have handed over five tunnels, an 842.5 m viaduct, eight minor bridges, and 9.3 km of highway to the NHAI," he said.

"We were executing this project with running traffic on a highway and there was always a fear of landslides and accidents. We had to deal with open highway excavation, limited right of way and poor geology. The right of way was insufficient to accommodate high hill cutting of 55-60 m height in poor geological strata. So, we adopted V-Cut excavation from the centre so that the muck didn't hinder traffic and the sides of the slope were excavated at the end," he explained.

PROJECTS HAVING 100 MW CAPACITY TO BE ALLOTTED

Till now, only the Himachalis were allowed to set up solar power projects up to 5 MW capacity

The government has given Himurja the target of allotting projects of 100 MW combined capacity during this financial year

250KW to 1MW solar projects having 30 MW combined capacity will be reserved for bona fide Himachalis

All solar power producers will be eligible to apply for the remaining 70 MW combined capacity as regards 1 MW to 5 MW projects

The Kiratpur-Manali road from Pandoh to Takoli. JAI KUMAR
