# Sensex, Nifty plunge 2 pc

## Bajaj Finance, Axis Bank, Mahindra & Mahindra, Maruti, major losers

OUR CORRESPONDENT WITH AGENCY INPUTS, MUMBAI

Sensex at **76,863.71**  
Nifty falls to **23,866.85**

Concerns over potential disruptions to crude oil supply, rising inflationary pressures, and the possible impact on economic growth kept participants cautious. Additionally, continued foreign institutional investor selling and weakness in the rupee further dampened risk appetite.

Market benchmark indices Sensex and Nifty ended nearly 2 per cent lower on Wednesday after a day's breather following a spike in global crude oil prices amid growing tensions in West Asia under investors.

Investor sentiment remained fragile as escalating global tensions in the Middle East continued to unsettle global markets and push volatility higher. Bajaj Finance was the biggest drag in the Sensex pack, sliding 5.01 per cent, followed by Axis Bank, Bajaj Finserv, Mahindra & Mahindra, Maruti, Trent, Bharti Airtel and Kotak Mahindra Bank. On the other hand, Sun Pharma and NTPC were the only gainers.

As the sector continued to face multiple headwinds, including higher raw material costs and persistent supply chain challenges, as persistent foreign fund outflows and selling in banking, financial services and automobile stocks weighed on benchmark indices. Siddhartha Khemka - Head of Research, Wealth Management, Motilal Oswal Financial Services Ltd, said.

The Maharashtra PSU recorded total sales of 18.21 million tonnes (MT) during the first 11 months of the financial year, registering a 14 per cent year-on-year growth, the company said.

# SAIL reports highest sales in Apr-Feb FY26

## Cash collection at ₹1 lakh crore

We are ready to adapt and grow with the market. By managing inventory and working capital smartly, we are ensuring financial discipline that strengthens the company's foundation.

New Delhi: State-run steel major Steel Authority of India Limited (SAIL) has reported its highest-ever sales during the April-February period of FY26, the Ministry of Steel said on Wednesday.

The Maharashtra PSU recorded total sales of 18.21 million tonnes (MT) during the first 11 months of the financial year, registering a 14 per cent year-on-year growth, the company said.

During the same period, the steel producer achieved its highest-ever cash collection of Rs 1.11 lakh crore, a 10 per cent increase compared to the previous year. In terms of retail sales, the ministry highlighted that stockyard sales and door deliveries all

witnessed significant improvement during the period, highlighting its customer-focused approach. In February 2026 alone, SAIL recorded total sales of 1.58 MT, according to the Ministry of Steel. The company also reduced its inventory by 1.05 lakh tonnes compared to January 2026 and lowered its borrowings by Rs 1,000 crore, according to the ministry. Responding to evolving market demand, SAIL has also reintroduced the production of chequered plates to

# Mobile phone exports jump 127 times in a decade

## Country is now the world's second-largest mobile manufacturing hub

Global companies have also started manufacturing products such as laptops and servers in India.

India's mobile phone exports have surged sharply over the past decade, rising more than 127 times from about Rs 0.01 lakh crore in 2014-15 to nearly Rs 2 lakh crore in 2024-25, the Parliament was informed on Wednesday.

Replying to a question in the Lok Sabha, union Electronics and IT Minister Ashwini Vaishnav said the sharp growth in exports reflects the success of the government's push to expand electronics manufacturing under initiatives such as 'Make in India' and 'Atmanirbhar Bharat'.

mentioned. Vaishnav said India started its electronics manufacturing journey by producing finished products, and the focus has now moved towards developing modules, sub-modules, components and even raw materials, tools and machinery used in the manufacturing process. The government has launched several schemes to strengthen domestic electronics manufacturing. These include the Production Linked Incentive Scheme for electronics manufacturing and IT hardware, the Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors, and the Electronics Manufacturing Clusters Scheme.

"The policies aim to build a complete ecosystem for electronics production in the country. According to the government, India has

transformed from being a net importer of mobile phones to becoming a net exporter over the past 11 years.

"The country is now the world's second-largest mobile manufacturing hub," he said.

# India remains key real estate investment destination

New Delhi: India continues to strengthen its position as a key investment destination within the Asia-Pacific region, recording one of the strongest growths in real estate investments among the major APAC markets in 2025, a report showed on Wednesday.

# India's pvt market deals hit \$207 bn in 5 years

NEW DELHI: India is approaching towards 'top pick' in Asia-Pacific private markets, providing global investors scale and resilience as activity in the Asia-Pacific slows, according to a report. According to an analysis by McKinsey & Company highlighted that about 31 per cent of the more than 50 limited partners surveyed ranked India first and 76 per cent placed it in their top three picks.

# Services exports, remittances may soften oil shock impact

New Delhi: Strong services exports and steady remittance inflows could help cushion the impact of rising crude oil prices on India's economy, the country's Ministry of Finance said on Wednesday.

India consumes about 5.3-5.5 million barrels of crude oil per day, while domestic production stands at only around 0.6 million barrels per day, making the country nearly 85 per cent dependent on imports. Petroleum imports already account for around 25-30 per cent of India's total imports, making oil prices a key driver of the country's external balance, the report said.

The report also pointed out that every \$10 increase in crude oil prices adds roughly \$12-15 billion to India's annual import bill. According to analysts, if crude prices were to rise towards \$120 per barrel and remain elevated through FY27, India's oil trade deficit could surge to nearly \$20 billion, pushing the current account deficit above 3.1 per cent of GDP. Historically, such episodes have led to rupee depreciation of more than 10 per cent, accompanied by higher inflation and tighter liquidity conditions, the report noted.

DEBATE ON NO-CONFIDENCE MOTION AGAINST LOK SABHA SPEAKER

Modi was silenced, says Kejriwal, on no-confidence motion against Prasad

Arvind Kejriwal

Arvind Kejriwal said that the PM had been stopped from speaking in the House on multiple occasions while BJP MP Ravi Shankar Prasad said that the motion against Speaker Rahul Gandhi should not be weaponised to "satisfy the ego" of a leader.

they (Opposition) won't understand," he said, which led to protest from the Opposition benches.

Every time we get up to speak, we are stopped from speaking. The last time I spoke, I raised fundamental questions about the compromises that have been made by our Prime Minister (Narendra Modi). Multiple times I have been stopped from speaking. Just a few days ago, during a debate, for the first time in India's history, the LOP was not allowed to speak. Last time, I had raised the issue of PM being compromised, I raised the issue of Mr (M M) Naravane. I raised the issue of Epstein and I raised the issue of Adani. I was silenced... Our PM has been compromised.

BJP MP Ravi Shankar Prasad and Leader of Opposition Rahul Gandhi speak in Parliament on Wednesday.

Everyone knows... Modi said, "This was a very defamatory and most irresponsible statement." Vengopal said, following which Parliamentary Affairs Minister Kiren Rijju wanted him to be cautious since Birla was not permitted to defend himself. "Nearly 25-30 MPs went to the Speaker's chamber. I have never witnessed such misbehaviour from MPs in front of a Speaker in my long career in Parliament," Rijju said, adding, "If the V-C's resignation is released, the whole world would be astonished at the behaviour of your MPs."

On the Motion of Thanks to the President's Address, a "government-created escape route". Vengopal claimed that the Modi government had "completely surrendered" before America, the country's economic integrity was "compromised", and economic sovereignty was "surrendered". "Personally, Om Birla may be ok. But his hands are dirty. Every time something happens, the home minister jumps into his room," he said. T.K.M. Sanyal (Ghosh), too, said he had nothing personal against Birla, but "this is a question of impartiality and dignity. There is hardly any democracy left in Parliament. Our opinions are trashed."

The Railway budget has been downgraded. It has been brought at midnight... Rahul Gandhi, Abhishek Banerjee and Akhilesh Yadav are not allowed to quote any book, but their "blue-eyed" boys are allowed," she claimed. IJLML MP S. J. Mohan also criticised the Opposition is in a "very difficult situation" as the freedom of speech of the MPs has been "denied".

Modi a yes man, falls weak in the face of US, Trump: Kejriwal targets PM over LPG crisis

Express News Service

New Delhi, March 11

AAP CONVENTOR and former Union Minister Arvind Kejriwal on Wednesday attacked Prime Minister Narendra Modi for "siding with America and Israel" in their ongoing conflict with Iran, which has led to the LPG crisis in the country.

The biggest mistake the PM made is not to stay neutral. We do not have a stake in this war and shouldn't have taken any sides... We had a non-aligned foreign policy for the last 75 years, which Modi demolished in a few days. He directly went and stood with America and Israel against Iran," he claimed at a press conference.

Kejriwal also claimed LPG production in the country has gone down by 50%. "India imports 60% of oil needed to meet the country's total consumption for LPG gas, and 90% of this used to come through the Strait of Hormuz which, at present, is affected by the war. So, India's oil imports have dropped by 50%, cutting LPG production to 50%."

Speaking on the LPG shortage India is facing due to the Middle East crisis, he said if the crisis continues, restaurants, hotels and the textile industry will suffer. In the next two days, he claimed, 50% of hotels will be in the verge of shutting down

Arvind Kejriwal and AAP leaders during a press conference on Wednesday.

In many cities and around 1 crore people will suddenly become unemployed.

Earlier, they captured us because the rulers were weak, they were blackmailed and could be purchased. Today, America has captured us because the PM is weak, he is being blackmailed. Trump and even other 'small' bureaucrats are mocking the PM... on TV. This makes the blood of Indians boil," he alleged.

"What is our fault? What-ever order Trump gives, our PM bows down and accepts it. Trump said to lower the import duty on cotton. PM said yes sir, we'll do. This has ruined so many of our farmers. Later, Trump said stop purchasing oil from Russia. PM said yes we'll do. This has caused a loss of Rs 8 lakh crore," Kejriwal claimed.

Over 2,100 JNU students vote in favour of V-C's resignation

New Delhi

Over 2,100 students of JNU voted in favour of Vice-Chancellor Sanjiv Dhillon's resignation in a referendum conducted by the JNUSU, the results of which were released by the student union on Wednesday.

Mishra said, "A total of 2409 students cast their votes in the referendum... 2181 students (86.5%) voted against the continuation of the V-C, as in more than 90% of the students who voted, thinking that the VC should resign, following the casteist remarks she has made." ENS

President of the JNUSU Aditi

F&B businesses could be hit: Goa hotel body writes to CM amid LPG shortage

Pavan Singh Chadha

Nanjali, March 11

AMID THE conflict in West Asia leading to apprehensions of a shortage of liquefied petroleum gas (LPG) across the country, the apex body representing hotels and travel trade in Goa has written to Chief Minister Prasad Sawant, flagging that the crisis could lead to the closure of many food and beverage establishments and hotels around the

coastal state and impact tourism.

In a letter addressed to the chief minister on Wednesday, the Travel and Tourism Association (TTA) said, "...the hospitality and restaurants sector in India is grappling with a growing shortage of commercial LPG supply as the government has taken steps to temporarily limit cooking gas cylinders to high priority sectors such as education and hospitals. This could

lead to the closing down of many food and beverage establishments and hotels around Goa, which will lead to a crisis and affect tourism... A lot of ancillary businesses will also be severely affected."

Sawant told the media: "There is no need to panic. There is no shortage of LPG cylinders for domestic use. There are issues when it comes to commercial LPG supply. We are in touch with the Union Ministry..."

CRYPTO 'FRAUD' Darwin Labs co-founder intercepted at airport; held

Express News Service

New Delhi, March 11

THE CENTRAL Bureau of Investigation (CBI) arrested Ayush Ashukey, co-founder and Chief Technology Officer (CTO) of Darwin Labs Private Limited, on Tuesday in connection with the high-profile GainBitcoin cryptocurrency fraud case.

According to officials, Varshney had been absconding for several months, prompting the issuance of a Look Out Circular (LOC) against him. On March 9, 2026, immigration authorities at Mumbai airport intercepted him while he was attempting to leave the country. He was subsequently handed over to the CBI and formally arrested on

March 10. According to the CBI, the case involves an alleged Ponzi scheme operated by Variable-tech Pvt. Ltd., which lured investors with promises of high returns through cryptocurrency investments. "The funds collected from investors were subsequently misappropriated, leading to massive financial losses for thousands of victims across India," a CBI spokesperson said in a statement.

The agency is probing the matter under sections 120B (criminal conspiracy), 406 (criminal breach of trust), and 420 (cheating) of the Indian Penal Code, along with Section 66 of the Information Technology Act, 2000.

Garro Hills elections postponed

Sukritia Baruah

Guwahati, March 11

AMID TENSIONS over the participation of non-tribals in the Garo Hills Autonomous District Council (GHADC) election, the Garo scheduled tribe population, particularly in the plain belt in the region's bordering area with Bangladesh, and two of its current members are Bengal-origin Muslims. The now-quashed notification would have meant they couldn't contest the polls. After tensions over this issue erupted in person and a stand-off that left two dead, once the process of filing

nomination for candidature began on Monday, Sangma announced on Wednesday that the election had been postponed. "Keeping the current prevailing situation in the Garo Hills and keeping the sentiments of the people in mind, the Government of Meghalaya has decided to postpone the GHADC elections. We will sit and decide how to further take up this procedure ahead..." he said. A single-judge bench of Justice H S Thangkhiew of the Meghalaya HC set aside and quashed the February 17 notification by the GHADC, ruling that it "cannot pass legal scrutiny".
