OPINION

SC verdict on Article 370 has strengthened the spirit of 'Ek Bharat, Shreshtha Bharat'

NARENDRA MODI

On 11th December, the Hon'ble Supreme Court of India delivered a historic judgment on the abrogation of Articles 370 and 35(A). Through its judgment, the court has upheld the sovereignty and integrity of India, something that is cherished by every Indian. The Supreme Court rightly observed that the decision taken on 5th August 2019 was done with the purpose of enhancing constitutional integration and not disintegration. The court has also recognised the fact that Article 370 was not permanent in nature.

Jammu, Kashmir and Ladakh's breathtaking landscapes, serene valleys, and majestic mountains have captivated the hearts of poets, artists and adventurers for generations. It is a place where the sublime meets the extraordinary, where the Himalayas reach for the sky, and where the pristine waters of its lakes and rivers mirror the heavens. But, for the last seven decades, these places have witnessed the worst form of violence and instability, something which the wonderful people never deserved.

Unfortunately, due to centuries of colonisation, most notably economic and mental subjugation, we became a confused society of sorts. Rather than taking a clear position on very basic things, we allowed duality, leading to confusion. Sadly, Jammu and Kashmir became a big victim of such a mindset. At the time of independence, we had a choice of making a fresh start for national integration. Instead, we decided to continue with the confused society approach even if it meant ignoring the long-term national interests.

I have had the opportunity of being connected with the Jammu and

Kashmir *Andolan* from a very early part of my life. I belong to an ideological framework where Jammu and Kashmir was not merely a political issue. But, it was about addressing the aspirations of society. Dr Syama Prasad Mookerjee held an important portfolio in the Nehru Cabinet and could have remained in government for a long time. Yet, he quit the Cabinet over the Kashmir issue and preferred the tough road ahead, even if it meant paying with his life. His efforts and sacrifice led to crores of Indians becoming emotionally attached with the Kashmir issue. Years later, Atal Ji, at a public meeting in Srinagar gave the powerful message of '*Insaniyat*', '*Jamhooriyat*' and '*Kashmiriyat*', which has also always been a source of great inspiration.

It was always my firm belief that what had happened in Jammu and Kashmir was a great betrayal—to our nation and to the people living there. It was also my strong desire to do whatever I can to remove this blot, this injustice done to the people. I have always wanted to work to alleviate the suffering of the people of Jammu and Kashmir.

In very basic words, Articles 370 and 35 (A) were like major obstacles. It seemed like an unbreakable wall and the sufferers were the poor and downtrodden. Articles 370 and 35(A) ensured that the people of Jammu and Kashmir never got the rights and development that the rest of their fellow Indians got. Due to these Articles, a distance was created between people belonging to the same nation. Due to this distance, many people from our nation who wanted to work to solve the problems of Jammu and Kashmir were unable to do so even if they clearly felt the pain of the people there.

As a *Karyakarta* who has seen the issue closely over the last several decades, I had a nuanced understanding of the specifics and the complexities of the issue. Yet, I was crystal clear about one thing—that the people of Jammu and Kashmir want development and they want to contribute to the development of India based on their strengths and skills. They also want a better quality of life of

their children, a life free from violence and uncertainty.

Thus, while serving the people of Jammu and Kashmir, we gave primacy to three pillars—understanding of the citizens' concerns, building trust through supportive actions, and prioritising development, development and more development.

In 2014, just after we assumed office, deadly floods struck Jammu and Kashmir, with a lot of damage in the Kashmir valley. In September 2014, I went to Srinagar to assess the situation and also announced ₹1000 crore as a special assistance for rehabilitation, signalling our government's commitment to supporting the people during crises. I had the opportunity to meet people from different walks of life and there was one common thread in these interactions—the people not only wanted development but they also wanted freedom from the rampant corruption prevailing for decades. The same year, I decided not to mark Diwali in remembrance of those we lost in Jammu and Kashmir. I also decided to be in Jammu and Kashmir on Diwali day.

In order to further strengthen Jammu and Kashmir's development journey, we decided that our government ministers would frequently go there and interact with people directly. These frequent visits also played a crucial role in building goodwill in Jammu and Kashmir. From May 2014 to March 2019, over 150 ministerial visits took place. This is a record in itself. The special package of 2015 was a significant step in addressing the developmental needs of Jammu and Kashmir. It contained initiatives for infrastructure development, job creation, tourism promotion and support to the handicraft industry.

We harnessed the power of sports in Jammu and Kashmir, recognising its potential to ignite the dreams of the youth. Through sporting initiatives, we witnessed the transformational impact of athletic pursuits on their aspirations and futures. Sporting venues were upgraded, training programmes were organised and

coaches were made available. One of the most unique things was to encourage the setting of local football clubs. The results were outstanding. The name of the talented footballer Afshan Ashiq comes to my mind—in December 2014 she was a part of a stone pelting group in Srinagar but with the right encouragement she turned to football, she was sent for training and excelled in the game. I recall interacting with her in one of the Fit India Dialogues where I said its time to move over 'Bend it like Beckham' because it is now 'Ace it like Afshan.' Other youngsters began to shine in kickboxing, Karate and more.

The Panchayat polls were also a watershed moment in the region's quest for all-round development. Once again, we were faced with a choice of either remaining in power or standing by our principles—the choice was never tough and we let go of a Government but preferred that that ideals that we stand for, the aspirations of the people of Jammu and Kashmir are given top priority. The success of panchayat polls indicated the democratic nature of the people of Jammu and Kashmir. My mind went back to an interaction I had with Pradhans from the villages. Among other issues, I made a request to them- that at no point must schools be burnt and that must be ensured. I was delighted to see that this was adhered to. After all, if schools are burnt the biggest sufferers are the small children.

The historical day of 5th August is etched in the hearts and minds of every Indian. Our Parliament passed the historic decision to abrogate Article 370. Since then, much has changed in Jammu, Kashmir and Ladakh. The judicial court verdict came in December 2023 but seeing the wave of development across Jammu, Kashmir and Ladakh, the people's court have given a resounding thumbs up to the Parliament's decision of abolishing Articles 370 and 35(A) for four years now.

At a political level, the last 4 years have been marked with a renewed faith in grassroots democracy. The women, tribals, SC, ST and marginalised sections of society were

not getting their due. At the same time, the aspirations of Ladakh were totally ignored. 5th August 2019 changed all that. All Central laws now apply without fear or favour Representation has also got more widespread- a three tier Panchayati Raj System is in place, BDC elections have been held, and refugee communities who were all but forgotten have begun to enjoy the fruits of development.

Key Central Government scheme have attained saturation levels, thus covering all sections of society. These include Saubhagya, Ujjwala and Ujjwala schemes. Strides have been made in housing, tap water connection and financial inclusion. Healthcare, otherwise a major challenge for the people has witnessed an upgradation of infrastructure. All the villages achieved ODF Plus stats. Government vacancies, which were otherwise a den of corruption and favouritism have been filled in a transparent and process driven manner. Other indicators like IMR have shown betterment. The boost to infrastructure and tourism has been for everyone to see. The credit for this naturally goes to the resilience of the people of Jammu and Kashmir, who have shown time and again that they want only development and are willing to be drivers of this positive change. Earlier, there was a question mark on the status of Jammu, Kashmir and Ladakh. Now, there are only exclamation marks about record growth, record development, record tourist inflow.

In its verdict on 11th December, the Supreme Court has strengthened the spirit of 'Ek Bharat, Shreshtha Bharat'—it has reminded us that what defines us is the bonds of unity and a shared commitment to good governance. Today, every child born in Jammu, Kashmir and Ladakh is born with a clean canvas, where he or she can paint a future full of vibrant aspirations. Today, the dreams of the people are no longer prisoners of the past but are possibilities of the future. After all, Development, democracy and dignity have replaced disillusionment, disappointment and despondency.

Tata Group firm Tejas bags 5G RAN tech in ₹12 crore deal

SHINE JACOB
Chennai, 11 December

In one of the most extensive technology transfer deals from academia in India, a 5G radio access network (RAN) technology developed by a multi-institutional team has been licensed to an industry partner, Tejas Networks (a Tata Group company), for a sum of ₹12 crore.

IIT Madras, IIT Kanpur, and the Society for Applied Microwave Electronics Engineering & Research (SAMEER) developed a '5G RAN sub-system' at the 5G Testbed.

The three institutions are jointly licensing the 5G RAN technology to Tejas, which will play a vital role in leveraging it for further advancements and commercial applications.

Tejas will be paying a transfer of technology non-exclusive licence fee of ₹12 crore in multiple instalments based on technical milestones.

Addressing this landmark event, Veezhinathan Kamakoti, director, IIT Madras, said, "I am very pleased that Tejas is planning to adopt this 5G RAN technology developed indigenously by a multi-institutional team of researchers. This initiative is in line with the Aatmanirbhar Bharat vision of the Government of India."

"This is an outstanding example of how translational research must happen in an inter-institutional, interdisciplinary manner. This is a great example of how research should translate into a product and then get deployed. I hope a billion users of our country will benefit from this technology," he said. Speaking about the development, Subramanian Ganesh, director, IIT Kanpur, said, "IIT Kanpur has been a pioneer in communication research in India. Our faculty has played a pivotal role in the development of this state-of-the-art indigenous 5G Testbed, specifically by developing the baseband unit of the 5G new radio base station at the institute. As we know, the 5G Testbed has been developed as part of a multi-institute collaborative project. This collaborative effort not only complements India's stride in groundbreaking transformative innovation but also opens up tremendous growth prospects for India's rapidly evolving telecommunications (telecom) industry."

The most Googled of 2023: Chandrayaan-3, G20 make it to the list

BS REPORTER
Mumbai, 11 December

It is that time of the year when everyone looks back. Search giant Google has published a list of things that captured Indians' attention in 2023, a year when the country made history by landing a spacecraft on the moon and taking the lead on the economic world stage by hosting the Group of 20 (G20) summit.

The country's love for cricket and movies made it to the search list. The historic success of Chandrayaan-3 headlined news events, with the spacecraft's journey to the moon prompting local and worldwide searches,

said Google in a blog post.

India's G20 presidency led 'What Is' search queries, marking curiosity about the multinational bloc. Other news-related queries showed people's interest in national events like Karnataka assembly election results and debate about the Uniform Civil Code and global happenings like 'Israel News' and 'Turkey Earthquake'.

In the spirit of self-care, Google's top trending 'How To' question was people searching about preventing sun damage to skin and hair with home remedies. People also searched for gyms, beauty parlours, and dermatologists near them. The expansion of the creator ecosystem in India is reflected in trending queries, with many people keen to know 'how to reach my first 5,000 followers on YouTube', said Google.

- ### TOP TRENDING SEARCHES IN NEWS EVENT
- 1 CHANDRAYAAN-3
 - 2 KARNATAKA STATE ELECTION RESULTS
 - 3 ISRAEL-HAMAS

- ### TOP TRENDING SEARCHES IN 'WHAT IS'
- 1 G20 SUMMIT

Microsoft, RIL among top recruiters at IIT Kanpur

Institute sees 891 job offers

VIRENDRA SINGH RAWAT
Lucknow, 11 December

Students at the Indian Institute of Technology (IIT) Kanpur have 891 job offers from leading global and Indian corporates in the current placement cycle.

The recruiters span different sectors including consultancy, information technology (IT), software, infrastructure, electronics, and manufacturing among others.

While 21 students received international job offers, industry leaders viz. Microsoft, Fujitsu, Samsung, Reliance, Goldman Sachs, McKinsey, Texas Instruments, Qualcomm, Deutsche Bank, Tata Projects, ICICI Bank, EXL, NPCL, Intel, and TSMC emerged as top recruiters.

In the 8-day placement season, 891 full-time offers, including pre-placement offers (PPOs), were extended to 818 students.

Professor Raju Kumar Gupta, Chairperson, Students' Placement Office, IIT Kanpur acknowledged the companies for supporting and contributing to the future of students.

Last year, the placements were conducted in December after a gap of two years via hybrid mode. Back then, the batch of 1,128 students accepted job offers including 208 PPOs.

The job offers included 74 international offers, indicating a jump of 57 per cent compared to the previous year. IIT Kanpur was established in 1959 and declared an Institute of National Importance by the Government of India. IIT Kanpur is known for the standard of its education in science and engineering and seminal R&D contributions.

CPCL FAULTED FOR OIL SPILL IN ENNORE

EXPRESS NEWS SERVICE
@ Chennai

A technical team of the state environment department faulted inadequate stormwater management issues in the Chennai Petroleum Corporation Limited (CPCL) premises for the oil spillage into Ennore Creek during the recent floods. The team, led by member-secretary of the Tamil Nadu Pollution Control Board (TNPCB), comprised of experts from Anna University, NEERI, Central Pollution Control Board and the Coast Guard. The TNPCB has also asked the CPCL to ramp up mitigation measures and complete them on priority.

The state health department has also deployed a team of doctors, including dermatologists, to provide treatment to the needy. An impact study of affected fisherfolk families is underway. The state environment department is also assessing biodiversity loss in the area.

Following the technical team's visit, Chief Secretary Shiva Das Meena chaired a meeting of the State Oil Spill

Fishermen rowing through an oil patch in Ennore creek on Monday | PRAVAKUMAR

Crisis Management Group and reviewed the ongoing mitigation and relief works. The panel decided to monitor the matter every day till the completion of mitigation works.

The TNPCB issued directives to the CPCL to identify hotspots in Buckingham Canal, Ennore Creek and other areas with

stagnating oil deposits and take remedial measures on a war footing. The Board also warned the CPCL that it would be liable to pay compensation for any damages caused and it shall be liable to pay compensation to the families adversely impacted due to the oil spill.

It also directed the CPCL to

undertake a comprehensive mapping study with a reputed technical institution to identify affected areas and furnish the report with an action plan immediately.

The Board also said the CPCL and its secondary units and terminals should ensure that all pipelines and tanks are intact

with no leakage. "If the CPCL is found to discharge oil containing water/polluted water against the norms, their operations are liable to be suspended," the directive said.

Fishermen in the area say that they have engaged in cleanup work using thick sponges, without any safety gear and the process will take between three and four months. The erring company has not been held accountable and no one from the company has come to check on our health, the fishermen alleged, adding that they have been struggling with respiratory illnesses since the spillage occurred. They have also sought compensation for the losses they have incurred.

23 students face difficulty in breathing after acid cans spill inside school van

BAGALAVAN PERIER @ Kallakurichi

NEARLY two dozen students in Chinnasalem had a major scare as cans of acid meant for sanitation spilled inside their school van on Monday morning. Twenty-three students from Vijayapuram and Moongilpadi areas who were on the bus reported breathing difficulties and burning sensations in eyes. The students belonged to classes one to 12 of a local private school.

Reports say cans of toilet cleaner (acid) and phenyl which were placed on the rear seat fell down after the van negotiated a speed-breaker approximately one kilometer from the school.

The acid spill resulted in smoke, causing suffocation and

irritation in children's eyes. The driver ignored the alert by panicky children onboard and stopped the vehicle only at the school entrance.

Promptly, the school staff arranged an alternative vehicle and transported the affected children to the government hospital in Chinnasalem.

Officials from the education department, including Kallakurichi District Education Officer for private schools J Durairaj and Sankarapuram MLA T Udhayasuriyan, visited the hospital to inquire about the incident. They questioned the students, van driver, and school staff. Education department sources stated that a report on the incident would be sent to higher authorities for further action.

Doctor found dead inside Chennai house

Chennai: A 31-year-old doctor was found dead in his house at Choolaimedu. Police said the victim, Marudhupandi, worked as a gastroenterologist at Madras Medical College. On Saturday, the doctor's relatives informed police that Marudhupandi was not answering their calls since morning. Subsequently, a police team broke open the victim's door and entered the house. They found him dead on a mat on the floor. A case has been registered under section 174 of CrPC. Police said no external injury was found on the body.
