Flipkart completes reverse flip to India

FE BUREAU
Bengaluru, March 9

WALMART-OWNED FLIPKART HAS completed the redomiciliation process of its holding structure to India from Singapore, with the company reportedly targeting a stock market listing in FY27. "Flipkart has received Government of India approval for its internal restructuring, pursuant to which Flipkart Internet Private Limited is now the holding entity of the Flipkart group. This completes the redomiciliation of the Flipkart group to India, a significant milestone that reflects our deep and long-term commitment to India," a company spokesperson said. The move comes more than a decade after Flipkart shifted its headquarters overseas. The company first announced plans to move its headquarters back to India in April 2025. By September, it received in-principle approval from a Singapore court, with hearings also held before India's National Company Law Appellate Tribunal. Flipkart's gross merchan-

dise value reportedly stood at around \$30 billion in 2025, up from roughly \$23 billion in 2021. The platform has over 500 million customers and 1.6 million sellers, while its logistics arm Ekart delivers to more than 22,000 pin codes. The redomiciliation mirrors a broader trend of Indian startups reversing their overseas holding structures ahead of domestic listings. Fintech firm Groww listed in India last year, while quick commerce player Zepto reportedly filed confidentially for an initial public

India has been actively encouraging technology companies to list domestically, with several firms citing regulatory clarity and simpler tax structures as reasons for the shift home.

Govt clears display manufacturing JV of Dixon and HKC

FE BUREAU
New Delhi, March 9

DIXON TECHNOLOGIES (INDIA) on Monday received approval from the ministry of electronics and information technology (MeitY) for its proposed joint venture with HKC Overseas under Press Note 3 of 2020, clearing a key regulatory hurdle for the company's planned entry into display technology manufacturing.

The approval allows HKC Overseas, an affiliate of HKC Corporation, to acquire a minority stake in Dixon Display Technologies (DDTPL), a wholly owned subsidiary of Dixon Technologies. Following completion of the transaction, Dixon will hold a 74% stake in the venture while HKC Overseas will own the remaining 26%.

The two companies had signed a share subscription and shareholders' agreement (SSHA) on August 16, 2025, outlining the structure of the partnership and the framework for operation and management of the joint venture. DDTPL will focus on the development, manufacturing and distribution of display technologies, including liquid crystal modules and thin film transistor liquid crystal display (TFT-LCD) modules. The company plans to supply display components across a range of sectors such as mobile phones, notebooks, automotive displays, televisions, monitors and industrial equipment. Industry executives said the venture could help strengthen domestic manufacturing of display components, which are currently largely imported. Press Note 3 of 2020 mandates government approval for

investments from entities based in countries that share a land border with India. The partnership is also expected to support the broader push to expand electronics manufacturing in India by developing local component capabilities. Displays are among the key components used across consumer electronics and automotive applications. Earlier, Dixon had announced a joint venture with Chinese electronic component firms — Chongqing Yuhai Precision Manufacturing and the Indian arm of Kunshan QTechnology — for manufacturing and sales of electronic components used in electronic devices such as mobile phones and laptops.

Nokia's India revenue rises 12%

OJASVI GUPTA
New Delhi, March 9

INDIA HAS EMERGED as Nokia's largest market in the Asia-Pacific region, with the Finnish telecom equipment maker reporting revenue of ₹16,250 crore from the country in calendar year 2025, a 12% increase from ₹13.7 billion a year ago. The company's latest filings with US stock exchanges showed India contributing roughly one-third of Nokia's Asia-Pacific revenue of ₹4.64 billion during the year, led by sustained investments by tele-

com operators in expanding and upgrading network infrastructure for 5G services. So far, India and China have competed for the leading space in the Asia-Pacific. However, last year China revenues have reduced by 19% to ₹913 million, given the intense competition with domestic players. Globally, Nokia reported net sales of ₹19.89 billion in 2025, up 3% from ₹19.22 billion in the previous year. The Americas remained the company's largest regional market with ₹6.99 billion in revenue, while Europe, West Asia and Africa generated ₹8.27 billion.

In addition, the company's spending for the Asia-Pacific region including Japan and India is that of 44% of the total amount invested. Looking ahead, for 2026, the company has a target of ₹22.5 billion of comparable operating profit. "We expect continued strong demand trends in network infrastructure as we ramp new products expanding our presence in AI & cloud and invest for long-term growth. In mobile infrastructure, we see a stable market environment and are focused on efficiency and improving profitability," the report stated.
