FIRST ORBIT REDUCTION DONE

Chandrayaan-3 slips closer to the moon

JOHNSON TA & AMITABH SINHA
Bengaluru/ New Delhi,
August 18

THE LANDER MODULE of Chandrayaan-3 carried out the first of its two scheduled orbit-reduction manoeuvres Friday and slipped closer to the moon. The lander module is now in a 113 km x 157 km orbit around the moon. It will undergo a similar operation Sunday to get even closer ahead of a scheduled landing on August 23.

"The lander module health is normal," Indian Space Research Organisation said in tweet.

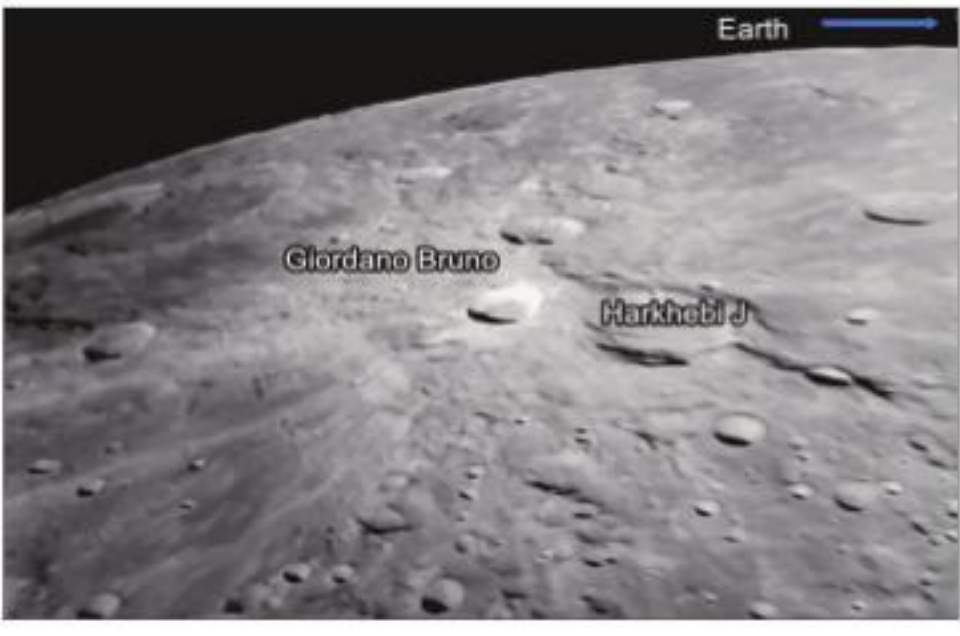

Having separated itself from the propulsion module, Chandrayaan-3 lander's communication system will now be tethered to the orbiter of Chandrayaan-2 which has been going around the moon for four years now.

While the lander of 2019 Chandrayaan-2 mission had failed to make a soft touchdown on lunar surface, its orbiter component is still in the lunar orbit and is helping to ensure the success of Chandrayaan-3.

In fact, it has already played an important role in identifying a relatively safe landing spot for Chandrayaan-3. It will now also facilitate communications between the Chandrayaan-3 lander and the ground station during and after the landing.

The Chandrayaan-3 mission's communication network with earth stations has been configured in a manner where the lander will send data to the Chandrayaan-2 orbiter which will, in turn, relay it to ground stations of ISRO and collaborative agencies. The Chandrayaan-3 lander also has the redundancy capacity to communicate directly to earth.

"Ultimately, the radio signals will come to earth from the orbiter and this is not from Chandrayaan-3 but from the orbiter of Chandrayaan 2. The Chandrayaan-2 orbiter is functioning very well and it will communicate with the Chandrayaan-3 lander. This signal will reach the ground station,"

Moon as seen by the Chandrayaan-3 Lander Imager camera-1 just after the separation of the Lander Module from the Propulsion Module on Thursday

ISRO chairman S Somnath said in a public interaction on August 9. "Suppose, for any reason, the Chandrayaan-2 orbiter is not working properly then the Chandrayaan-3 lander will communicate directly with Earth. For the rover (which will be released after a safe and soft landing) the communication is only with the lander and the lander will communicate with the orbiter or earth stations," Somnath said.

While the Chandrayaan-2 landing attempt was guided in the identification of a landing site by images obtained from moon missions of other space agencies, the identification of a 4 km by 2.4 km landing site for the Chandrayaan-3 lander has been done by an Orbital High Resolution Camera (ORHC) on board the Chandrayaan-2 orbiter.

"The landing site area is increased to four km by 2.4 km against the (earlier) 0.5 x 0.5 for C2. The lander will land in the middle of the landing site. The landing site has been imaged properly. We found that the landing site is reasonably flat but it still contains craters and boulders but compared to other locations it is flatter. The camera (onboard the lander) will still have to look before landing to see there are no craters or boulders," the ISRO chairman said.

Indeed, the Chandrayaan-3 mission did not have a heavy-weight orbiter system attached to it on account of the presence of the Chandrayaan-

2 orbiter in space. The orbiter in the current mission was merely a propulsion system which carried one science instrument on board. This has allowed ISRO to make the lander -- which crashed in 2019 -- more crash-proof and rugged. "The orbiter in Chandrayaan 3 is called the propulsion module because it does not have any payloads. The lander is heavier now since some of the mass of the earlier orbiter is moved to the lander to make it more rugged," Somnath said.

Although the propulsion module bid farewell to the Chandrayaan 3 lander on Thursday - as the lander separated from the propulsion module to make its own way to the surface of the moon - the propulsion module will continue orbiting the moon for six months or more.

26/11 accused

Rana's plea against his extradition rejected in US

LALIT K JHA
Washington, August 18

A US COURT has denied the writ of habeas corpus filed by Pakistani-origin Canadian businessman Tahawwur Rana, paving the way for US Secretary of State Antony Blinken to issue a certification for him to be extradited to India where he is sought for his involvement in the 2008 Mumbai terror attacks.

In a major victory for India's fight in bringing the perpetrators of the 26/11 Mumbai attacks to justice, a US court, in May, approved 62-year-old Rana's extradition to India.

In June, Rana, who is currently detained at the Metropolitan Detention Centre in Los Angeles, filed a "writ of habeas corpus" challenging the court order that acceded to the request of the US government that he be extradited to India.

"The court has denied Tahawwur Rana's petition for writ of habeas corpus by a separate order," Judge Dale S Fischer, US District Judge, Central District of California, wrote in his order on August 10.

However, Rana has filed an appeal against the order and sought a stay on his extradition till the time his appeal in the Ninth Circuit court is heard.

Rana faces charges for his role in the Mumbai attacks and is known to be associated with Pakistani-American terrorist

David Coleman Headley, one of the main conspirators of the 26/11 Mumbai attacks.

Judge Fischer, in his order, said Rana has only made two basic arguments in the writ. First, he claims that, pursuant to the treaty, he cannot be extradited because India plans to prosecute him for the same acts for which he was charged and acquitted in a US court. Second, he argues that the government has not established that there is probable cause to believe that Rana committed the Indian offences for which he is expected to stand trial, the judge said.

He denied both arguments of Rana. "Given that, even if (David) Headley's testimony were the entire basis for the probable cause finding, it would be sufficient for the purposes of habeas review because it constitutes some competent evidence supporting the finding. For the reasons stated above, Rana's petition for a writ of habeas corpus is denied," the judge wrote.

Following Judge Fischer's order, Patrick Blegen and John D Cline, Rana's two attorneys, filed an appeal to the US Court of Appeals for the Ninth Circuit. In a separate appeal, Blegen has filed a petition "for a stay of extradition pending his appeal".

In June, the Biden administration urged the court to deny the writ of habeas corpus filed by Rana.

Three killed in Manipur,

violence now in new area

SUKRITA BARUAH
Guwahati, August 18

IN FRESH VIOLENCE in Manipur, three persons were killed early on Friday morning in a village in Tangkhul Naga-dominated Kamjong district, which has been relatively peaceful through the course of the ongoing conflict in the state.

The incident took place at around 4:30 am, said police, in the Kuki village of Thowai Kuki. The three killed have been identified as Thangkhookai Haokip (35), Jamkhogin Haokip (26), and Hollenson Baite (24).

While Thowai Kuki village falls under the jurisdiction of Ukhrul police, it comes under the revenue district of Kamjong, where Tangkhul Nagas are in majority too. While the village is not located right at the border with the neighbouring Meitei-dominated Imphal East district, it is not very far from it. Yainganpokpi in Imphal East -- the area around which has seen considerable unrest and firing -- is 10

kms away. According to residents, the three persons who were killed were on village guard duty at night and had been stationed in a bunker that the community had built outside the village.

Ukhrul Superintendent of Police (SP) Ningshem Vashum also said the three were reported to have been village guards. "The incident is related to the ongoing ethnic problem in the state. Some armed miscreants entered the area and

these three people who were guarding the village were shot. The firing has stopped in the area and security forces comprising the Army and police have moved in," he said.

"The incident took place early in the morning... It is suspected that valley-based insurgent groups are behind this incident. Subsequently, security forces have taken control and are in the area, taking stock of the situation," said a defence source.

मूडीज ने भारत की साख 'बीएए3' पर बरकरार रखी

નર્ડ દિલ્લી, 18 અગસ્ત (ભાષા)।

रेंटिंग एजेंसी मूडीज ने रेंटिंग परिकटस्थ के साथ भारत की साख को बीएएउ3 रेंटिंग पर बकरार रखते हुये शुक्रवार को कहा कि उच्च वृद्धि दर से आय स्तर क्रमिक वृद्धि होगी जो आर्थिक स्थिति को मजबूती देगा। मूडीज ने देश में बढ़ते हुए राजनीतिक तनाव के बीएएउ3 लेकलुभावना नीतियां अपनाए जाने से जुड़े जोखिमों को लेकर आगाह भी किया। मूडीज का अनुमान है कि घरेलू मांग के दम पर भारत की आर्थिक वृद्धि दर कम से कम अगले दो साल तक 71-20 देशों की अर्थव्यवस्थाओं के मुकाबले ऊंचे स्तर पर बनी रहेगी। अमेरिकी रेंटिंग एजेंसी ने एक बयान में कहा कि मूडीज इन्वेस्टर्स सर्विस ने भारत सरकार की दीर्घकालिक स्थानीय और विदेशी मुद्रा जारीकर्ता रेंटिंग और स्थानीय मुद्रा को लेकर बीएएउ3 रेंटिंग की पुष्टि की है। मूडीज ने भारत की अन्य अल्पकालिक स्थानीय रेंटिंग रेंटिंग को भी 3 पर बकरार रखा है। रेंटिंग स्थिर बना हुआ है। बीएएउ3 को निवेश स्तर की समस्त

मूडीज का अनुमान है कि घरेलू मांग के दम पर भारत की आर्थिक वृद्धि दर कम से कम अगले दो साल तक जी-20 देशों की अर्थव्यवस्थाओं के मुकाबले ऊंचे स्तर पर बनी रहेगी।

निचली रेंटिंग माना जाता है। मूडोज ने कहा कि कोविड महामारी के बाद मजबूत वृद्धि संभावनाओं के बहाली, मुद्रास्फीति नियंत्रण की प्रथायें प्रतिबद्ध और विहायी प्रणाली के बेहतर होने से मौद्रिक व्यवस्थापक आर्थिक नीतियों के प्रभावों होने के उससे विचार को सर्मथन मिलता है। इसके साथ ही मूडोज ने कुछ अंशकारण भी बताए हैं। रेंटिंग एजेंसी से अपूर्ण टिप्पणी में कहा कि नागरिक समाज व राजनीतिव असमर्थत पर बंदिश के साथ संप्रदायों के बीच तनाव बढ़ने से राजनीतिक जोखिम और संस्थाओं के गुणवत्ता के कमजोर आकलन को सर्मथन मिलता है।

सुप्रीम कोर्ट ने सीबीआइ से पूछा
क्या दाभोलकर, पानसरे, लंकेश और
कलबुर्गी की हत्या में कोई समानता थी

जनसत्ता ब्यूरो

ନହୁ ଦିଲ୍‌ଲୀ, ୧୪ ଅଗଷ୍ଟ ।

उच्चतम न्यायालय में शुक्रवार को सीबीआई से पूछा कि क्या तर्कवादी नरेंद्र दाभोलकर, भाकपा नेता गोविंद पानसेर, कार्यकर्ता-पत्रकार गौरी लंकेश और विद्वान एमएम कलबुर्गी की हत्याओं में कोई समान बात थी। अंधविश्वास के खिलाफ आवाज उठाने वाले दाभोलकर की 20 अगस्त, 2013 को पुणे में सुबह की सैर के दौरान दो मोटरसाइकिल सवार हमलावरों ने गोली मारकर हत्या कर दी थी। पानसेर की हत्या 20 फरवरी, 2015 को हुई थी, जबकि लंकेश की हत्या पांच सितंबर, 2017 को हुई थी। कलबुर्गी की 30 अगस्त, 2015 को गोली मारकर हत्या कर दी गई थी।

न्यायमूर्ति सजय किशन कोल और न्यायमूर्ति सुधांशु धूलिया की पीठ ने नरेंद्र दाभोलकर की बेटी मुक्ता दाभोलकर की याचिका पर सुनवाई करते हुए सीबीआई से यह सवाल किया, जिसमें उन्होंने अपने

पिता की हत्या की जांच की निगरानी जारी रखने से इनकार करने के बंबई उच्च न्यायालय के इस साल 18 अप्रैल के आदेश की चुनौती दी है। मुक्ता दाभोलकर की ओर से पेश वरिष्ठ वकील अनंदा गोवर ने पीठ से कहा कि चार हत्याओं के पीछे एक बड़ी साजिश थी। उन्होंने कहा कि उपलब्ध सबूतों से संकेत मिलता है कि ये मामले जुड़े हो सकते हैं। न्यायमूर्ति धूलिया ने सीबीआई की ओर से पेश हुई अतिरिक्त सांतिनियर जनरल (एएसजी) शैल्यं भाटी से पूछा, जो आरोपी मुकदमे का सामना कर रहे हैं (दाभोलकर मामले में), आपके अनुसार, उन चार हत्याओं में कोई समान सूत्र नहीं है? ठीक है? आप यही कह रहे हैं? न्यायमूर्ति कोल ने कहा, हम यह जानना चाहते हैं और सीबीआई से कहा, कृपया इस पर गौर करें। जैसे ही गोवर ने मामले से जुड़े मुद्दों पर बहस शुरू की, पीठ ने उससे कहा कि उच्च न्यायालय ने कहा है कि दाभोलकर हत्या मामले में मुकदमा चल रहा है और कुछ गवाहों से पहले ही पूछताछ की जा चुकी है।

से कहा, कृपया इस पर गौर करें। जैसे ही घोवर ने मामले से जुड़े मुद्दों पर बहस शुरू की, पीठ ने उनसे कहा कि उच्च न्यायालय ने कहा है कि दाभीलकर हत्या मामले में मुकदमा चल रहा है और कुछ गवाहों से पहले ही पूछताछ की जा चुकी है।

FIRST ORBIT REDUCTION DONE

Chandrayaan-3 slips closer to the moon

JOHNSON TA & AMITABH SINHA
Bengaluru/ New Delhi, August 18

THE LANDER MODULE of Chandrayaan-3 carried out the first of its two scheduled orbit-reduction manoeuvres Friday and slipped closer to the moon.

The lander module is now in a 113 km x 157 km orbit around the moon. It will undergo a similar operation Sunday to get even closer ahead of a scheduled landing on August 23.

The lander module health is "normal," Indian Space Research Organisation said in tweet.

Having separated itself from the propulsion module, Chandrayaan-3 lander's communication system will now be tethered to the orbiter of Chandrayaan-2 which has been going around the moon for four years now.

While the lander of 2019 Chandrayaan-2 mission had failed to make a soft touchdown on lunar surface, its orbiter component is still in the lunar orbit and is helping to ensure the success of Chandrayaan-3.

In fact, it has already played an important role in identifying a relatively safe landing spot for Chandrayaan-3. It will now also facilitate communications between the Chandrayaan-3 lander and the ground station during and after the landing.

The Chandrayaan-3 mission's communication network with earth stations has been configured in a manner where the lander will send data to the Chandrayaan-2 orbiter which will, in turn, relay it to ground stations of ISRO and collaborative agencies. The Chandrayaan-3 lander also has the redundancy capacity to communicate directly to earth.

"Ultimately, the radio signals will come to earth from the orbiter and this is not from Chandrayaan-3 but from the orbiter of Chandrayaan 2. The Chandrayaan-2 orbiter is functioning very well and it will communicate with the Chandrayaan-3 lander. This signal will reach the ground station,"

Moon as seen by the Chandrayaan-3 Lander Imager camera-1 just after the separation of the Lander Module from the Propulsion Module on Thursday

ISRO chairman S Somnath said in a public interaction on August 9.

"Suppose, for any reason, the Chandrayaan-2 orbiter is not working properly then the Chandrayaan-3 lander will communicate directly with Earth. For the rover (which will be released after a safe and soft landing) the communication is only with the lander and the lander will communicate with the orbiter or earth stations," Somnath said.

While the Chandrayaan-2 landing attempt was guided in the identification of a landing site by images obtained from moon missions of other space agencies, the identification of a 4 km by 2.4 km landing site for the Chandrayaan-3 lander has been done by an Orbital High Resolution Camera (ORHC) on board the Chandrayaan-2 orbiter.

"The landing site area is increased to four km by 2.4 km against the (earlier) 0.5 x 0.5 for C2. The lander will land in the middle of the landing site. The landing site has been imaged properly. We found that the landing site is reasonably flat but it still contains craters and boulders but compared to other locations it is flatter. The camera (onboard the lander) will still have to look before landing to see there are no craters or boulders," the ISRO chairman said.

Indeed, the Chandrayaan-3 mission did not have a heavy-weight orbiter system attached to it on account of the presence of the Chandrayaan-

2 orbiter in space. The orbiter in the current mission was merely a propulsion system which carried one science instrument on board. This has allowed ISRO to make the lander -- which crashed in 2019 -- more crash-proof and rugged.

"The orbiter in Chandrayaan 3 is called the propulsion module because it does not have any payloads. The lander is heavier now since some of the mass of the earlier orbiter is moved to the lander to make it more rugged," Somnath said.

Although the propulsion module bid farewell to the Chandrayaan 3 lander on Thursday - as the lander separated from the propulsion module to make its own way to the surface of the moon - the propulsion module will continue orbiting the moon for six months or more.

26/11 accused Rana's plea against his extradition rejected in US

LALIT K JHA
Washington, August 18

A US COURT has denied the writ of habeas corpus filed by Pakistani-origin Canadian businessman Tahawwur Rana, paving the way for US Secretary of State Antony Blinken to issue a certification for him to be extradited to India where he is sought for his involvement in the 2008 Mumbai terror attacks.

In a major victory for India's fight in bringing the perpetrators of the 26/11 Mumbai attacks to justice, a US court, in May, approved 62-year-old Rana's extradition to India.

In June, Rana, who is currently detained at the Metropolitan Detention Centre in Los Angeles, filed a "writ of habeas corpus" challenging the court order that acceded to the request of the US government that he be extradited to India.

"The court has denied Tahawwur Rana's petition for writ of habeas corpus by a separate order," Judge Dale S Fischer, US District Judge, Central District of California, wrote in his order on August 10.

However, Rana has filed an appeal against the order and sought a stay on his extradition till the time his appeal in the Ninth Circuit Court is heard.

Rana faces charges for his role in the Mumbai attacks and is known to be associated with Pakistani-American terrorist

David Coleman Headley, one of the main conspirators of the 26/11 Mumbai attacks.

Judge Fischer, in his order, said Rana has only made two basic arguments in the writ. First, he claims that, pursuant to the treaty, he cannot be extradited because India plans to prosecute him for the same acts for which he was charged and acquitted in a US court. Second, he argues that the government has not established that there is probable cause to believe that Rana committed the Indian offences for which he is expected to stand trial, the judge said.

He denied both arguments of Rana. "Given that, even if (David) Headley's testimony were the entire basis for the probable cause finding, it would be sufficient for the purposes of habeas review because it constitutes some competent evidence supporting the finding. For the reasons stated above, Rana's petition for a writ of habeas corpus is denied," the judge wrote.

Following Judge Fischer's order, Patrick Blegen and John D Cline, Rana's two attorneys, filed an appeal to the US Court of Appeals for the Ninth Circuit. In a separate appeal, Blegen has filed a petition "for a stay of extradition pending his appeal".

In June, the Biden administration urged the court to deny the writ of habeas corpus filed by Rana.

Three killed in Manipur, violence now in new area

SUKRITA BARUAH
Guwahati, August 18

IN FRESH VIOLENCE in Manipur, three persons were killed early on Friday morning in a village in Tangkhul Naga-dominated Kamjong district, which has been relatively peaceful through the course of the ongoing conflict in the state.

The incident took place at around 4:30 am, said police, in the Kuki village of Thowai Kuki. The three killed have been identified as Thangkhookai Haokip (35), Jamkhogin Haokip (26), and Hollenson Baite (24).

While Thowai Kuki village falls under the jurisdiction of Ukhrul police, it comes under the revenue district of Kamjong, where Tangkhul Nagas are in majority too. While the village is not located right at the border with the neighbouring Meitei-dominated Imphal East district, it is not very far from it. Yainganpokpi in Imphal East – the area around which has seen considerable unrest and firing – is 10

According to residents, the three persons who were killed were on village guard duty at night and had been stationed in a bunker that the community had built outside the village.

Ukhrul Superintendent of Police (SP) Ningshem Vashum also said the three were reported to have been village guards. "The incident is related to the ongoing ethnic problem in the state. Some armed miscreants entered the area and

these three people who were guarding the village were shot. The firing has stopped in the area and security forces comprising the Army and police have moved in," he said.

"The incident took place early in the morning... It is suspected that valley-based insurgent groups are behind this incident. Subsequently, security forces have taken control and are in the area, taking stock of the situation," said a defence source.
