Trio wins Nobel in physics for study on electrons

NIKLAS POLLARD & JOHAN AHLANDER
Stockholm, October 3

SCIENTISTS PIERRE AGOSTINI, Ferenc Krausz and Anne L’Huillier won the 2023 Nobel Prize in Physics for creating ultra-short pulses of light that can give a snapshot of changes within atoms, potentially leading to better detection of disease. The prize-awarding academy said their studies had given humanity new tools for exploring the movement of electrons inside atoms and molecules, where changes occur in a few tenths of an attosecond—a unit so short that there are as many attoseconds in one second as there have been seconds since the birth of the universe.

The prize, which was raised this year to 11 million Swedish crowns (about \$1 million), is awarded by the Royal Swedish Academy of Sciences.

“The ability to generate attosecond pulses of light has opened the door on a tiny, extremely tiny, time scale and it’s also opened the door to the world of electrons,” said Eva Olsson, member of the Nobel Prize in Physics Selection Committee. It was once thought such changes in electrons could not be seen, but the use of attosecond pulses has changed this, she added. There are potential applications of the findings in many different areas. In electronics, it is important to understand and control how electrons behave in a material.

The field also held promise in areas such as a new in-vitro diagnostic technique to detect characteristic molecular traces of diseases in blood samples, the academy said.

Pierre Agostini

Ferenc Krausz

Anne L’Huillier

L’Huillier, who received word she had won the prize in the middle of a lecture, told a news conference over the phone, “it is really a prestigious prize and I’m so happy to get it. It’s incredible.” She proceeded with the lecture after the news, a half hour she described as “a bit difficult.”

Only the fifth woman to win a Nobel physics prize, L’Huillier works at Lund University in Sweden and Agostini is a professor at Ohio State University in the United States.

L’Huillier discovered a new effect from the interaction of laser light with atoms in a gas in experiments beginning in the 1980s. Agostini and Krausz then demonstrated how this could be used to create shorter light pulses than previously possible.

Hungarian-born Krausz, speaking at the Max Planck Institute of Quantum Optics where he is director, said he was trying to take in the reality of winning the award.

“I did not expect it. I am overwhelmed,” he told Reuters.

Krausz, whose team generated the first ultra-fast pulses in the early 2000s, has previously likened attosecond physics to a fast-shutter camera where the short light

flashes allowed a freeze frame look within the microcosm.

Physics is the second Nobel to be awarded this week after Hungarian scientist Katalin Kariko and US colleague Drew Weissman won the medicine prize for making mRNA molecule discoveries that paved the way for Covid-19 vaccines.

Created in the will of dynamite inventor and businessman Alfred Nobel, the prizes for achievements in science, literature and peace have been awarded since 1901 with a few interruptions, becoming the arguably highest honour for scientists everywhere.

While the award for peace can take the limelight, the physics prize has also often taken centre stage with winners such as Albert Einstein and awards for science that has fundamentally changed how we see the world.

Last year, Alain Aspect, John Clauser and Anton Zeilinger won the prize for work on quantum entanglement, where two particles are linked regardless of the space between them, something that unsettled Einstein himself who once referred to it as “spooky action at a distance”. —REUTERS

Rohit puts to rest shadow of past: ‘Yes, we have not won; it is fine... It happens’

DEVENDRA PANDEY & SRIRAM VEERA
Mumbai, October 3

THE LAST TIME India won an ICC tournament was in 2013, when MS Dhoni lifted the Champions Trophy. A decade later, captain Rohit Sharma says he wouldn’t allow the decade-long futile Cup chase to pull down his team during the 50-over cricket carnival that starts on Thursday, when defending champions England take on New Zealand in Ahmedabad.

“Yes, we have not won; it’s fine! I’m not a person who overthinks and puts myself in a tough place where I’m not able to make a decision. England started winning now; in 2019 they won the World Cup after so many years. It happens. Australia is the only consistent team who have won. After 2007, they won the ODI World Cup in 2015. They won the T20 World Cup in Dubai,” Sharma told The Indian Express.

So who will win the Cup? “I don’t have an answer for it. How can I say that now? All I can hope is that the team is a good space. Everybody is fit and fine. That’s all I can hope for. I cannot say beyond this. Space is such an important factor and it’s a very key thing now,” he said.

Sharma also stressed he would be glad if the expectations from the fans aren’t too high. “What people are expecting we can’t control. In India wherever we go, be it airports or hotels, they say, ‘World Cup jeetna hai sir’ (You have to win the World Cup). It happens everywhere. It will never stop,” he said with a smile.

India’s record in the ICC events has been a point of contention. They have often done well to reach the business end of the tournaments but have been unable to win the knockout games that matter.

In 2015, India reached the

ROHIT SHARMA, CAPTAIN, INDIAN CRICKET TEAM

“Yes, we have not won; it’s fine! I’m not a person who overthinks and puts myself in a tough place where I’m not able to make a decision. England started winning now; in 2019 they won the World Cup after so many years. It happens. Australia is the only consistent team who have won.”

semifinal only to lose to Australia. Next time, in 2019, they lost in the semifinals again – to New Zealand. In the two recent T20 World Cups, in UAE in 2021, and in Australia in 2022, the team failed to make it to the final.

Last year in Australia, Sharma had taken over the captaincy from Virat Kohli but the jinx had continued. Now he has a chance to leave a legacy, but he said he doesn’t like to think in those terms.

“Every year there is an ICC trophy now; if you don’t win it’s an unsuccessful year! People just forget what good work has happened in these 10 months. Rightly, as the Indian cricket team, we are expected to win major trophies. We are one of the top teams in the world. We have to be good at it.

It has been disappointing for sure,” Sharma said.

At 36, this could be his last World Cup as a leader and probably as a player. Does he feel that the captaincy came to him at the right time or was it delayed? “Obviously, you want to be at your peak for this, say when you are 26-27. But you cannot always get what you want. You are talking about the Indian captaincy and there have been stalwarts in the Indian team. Many more players deserved to be the captain of the team. I had to wait for my turn and that’s absolutely fair enough. The guys before, Virat was before me, so was MS (Dhoni),” he said.

“Just look at the names that are missed out: Gautam Gambhir, Virender Sehwag... these are all stalwarts of

Indian cricket. Not to forget Yuvraj Singh. He never captained India. Yuvraj has been such a match winner for India, he should have been the captain at some stage but he didn’t get it. That’s life. I got it now and I am grateful for it. I would rather have it when I know how to captain a team, when I know what is required and all. Rather than when I don’t know the ABCD of captaincy. So in that respect, this is good.”

Sharma also laid out the challenges ahead of playing a nearly two-month-long tournament that also was the reason for so much headache behind the team selection. “A team needs to play 11 games to reach the World Cup final. Last time we played this format was in 2019, but to play 11 ODIs in

one-and-half months is not easy. It’s a long World Cup. We don’t want any of our pacers to break down. Hence we have selected more of them.”

On the comparison with the Class of 2011, Sharma said the Dhoni-led World Cup winning team had more experienced players.

“In the 2011 team, everybody was a big name. Did any position change? No. You suddenly didn’t have to bring Harbhajan Singh at number 4-5 because all the guys are match winners in the positions that they play. Now we have a lot of newer faces. We had an injury problem, two players (Rahul and Shreyas) are making a comeback after two months. So, things looked different and selection calls had to be made.”

PUBLIC NOTICE
The undersigned informs that the Original Share certificate bearing certificate no: **1425** issued by **CARBORUNDUM UNIVERSAL LIMITED** in favor of Mr./Ms. **DHAVEJI C V R**, under folio no: **CUL109906** for the distinctive number from **2717215 to 2721114**, at the face value of **Rs.1/-** per share to the tune of **3900** shares, is misplaced, if anyone finds the same may kindly call the undersigned to the mentioned number and handover the same.

Notice to the Investors/Unit holders of ICICI Prudential Balanced Advantage Fund and ICICI Prudential Equity & Debt Fund (the Schemes)

Notice is hereby given that ICICI Prudential Trust Limited, Trustee to ICICI Prudential Mutual Fund has approved the following distribution under Income Distribution cum capital withdrawal option (IDCW option) of the Schemes, subject to availability of distributable surplus on the record date i.e. on October 6, 2023*:

Name of the Schemes/Plans	Quantum of IDCW (₹ per unit) (Face value of ₹ 10/- each) 5#	NAV as on September 29, 2023 (₹ Per unit)
ICICI Prudential Balanced Advantage Fund		
Monthly IDCW	0.07	18.68
Direct Plan – Monthly IDCW	0.07	21.80
ICICI Prudential Equity & Debt Fund		
Monthly IDCW	0.16	34.37
Direct Plan – Monthly IDCW	0.16	52.65

- \$ The distribution will be subject to the availability of distributable surplus and may be lower depending upon the extent of distributable surplus available on the record date under the IDCW option of the Schemes.
Subject to deduction of applicable statutory levy, if any
* or the immediately following Business Day, if that day is a Non – Business Day.

The distribution with respect to IDCW will be done to all the unit holders/beneficial owners whose names appear in the register of unit holders/Statement of beneficial owners maintained by the Depositories, as applicable under the IDCW option of the Schemes, at the close of business hours on the record date.

It should be noted that pursuant to payment of IDCW, the NAV of the IDCW option of the Schemes would fall to the extent of payout and statutory levy (if applicable).
