Pvt dealers allocated 90% DAP for sale to farmers

Rabi season Co-op societies have negligible stocks of fertiliser

RUCHIKA M KHANNA
TEHRAN NEWS SERVICE

CHANDIGARH, AUGUST 24
Private fertiliser dealers in Punjab have been allocated over 90 per cent of the diammonium phosphate (DAP) for sale to farmers during the upcoming wheat season even as primary agriculture cooperative societies have negligible stocks of the fertiliser, needed for a good wheat crop.

Of the 1,30,000 metric tonnes of DAP allocated to the state by the Centre, 1,20,000 metric tonnes has been given to private traders. These stocks were allocated to the state Agriculture Department in July and August as advance stocks for the next wheat season. Wheat sowing begins in October-end. Last year, Markfed had a stock of 80,000 metric tonnes of DAP in August, while this time, it is just 12,000 MT.

STOCKING UP FOR NEXT SEASON
■ Of the 1,30,000 metric tonnes of DAP allocated to the state by the Central Government, 1,20,000 metric tonnes has been given to private traders.

eties and only 40 per cent to private traders. Generally, before each crop marketing season starts, the department issues a letter making this distribution for the sale of DAP.

Punjab's requirement for DAP in the entire wheat season is 5.50 lakh metric tonnes (LMT), with 4.80 LMT required for wheat and the remaining for potato and other crops. By this standard, 3.30 LMT should be allocated to the cooperative societies for sale. The reason farmers prefer buying from the societies is that the rates are cheaper and private traders often force them to buy DAP in bundled packages with either some seeds or other insecticides/pesticides.

The issue was flagged by representatives of farmer unions at a meeting in Chandigarh last week.

CS Verma said he had now directed the department to ensure that the cooperatives got 80 per cent of the entire DAP allocation for the upcoming rabi season by giving more stocks to the cooperative societies as per norms. Including the 1.30 LMT stocks that private traders have received till date, their allocation would not cross 2.20 LMT, he said.

Director (Agriculture) Gurinder Singh, when asked about the reason behind the anomaly said Markfed had refused to lift its stock of fertilisers. He denied that private traders had been facilitated. Denying this, Managing Director of Markfed Girish Dayal said that the issue was raised by the farmers' unions.
