RE: [CASE 10865682381] Limit Increase: EC2 Instances

Amazon Web Services <no-reply-aws@amazon.com>   Tue, Sep 27, 2022 at 1:18 PM
To: ibbiibbi766@gmail.com

Good day,

Thank you for taking the time to speak with me today.

I understand that you would like more information on how to obtain cost estimations for upgrading your EC2 Instances.

Windows and Linux EC2 instances are billed by the instance-second. When an instance is in the running state, you're billed in one-second increments with a minimum off 60 seconds.

For a more detailed explanation, see: https://amzn.to/2Qa8UgE

For up-to-date pricing information, see: http://aws.amazon.com/ec2/pricing/

You can use Simple Monthly Calculator to get an estimate of your monthly charges related to AWS services. For more information, see the following link:
http://aws.amazon.com/calculator/

This Calculator provides an estimate of usage charges for AWS services based on certain information you provide. Monthly charges will be based on your actual usage of AWS services, and may vary from the estimates the Calculator has provided. Most AWS services are billed on an hourly basis.

In addition, our Sales/Business Development team is a great resource to help you with recommendations on upgrading your instance.

Complete and submit the form on the following page and a team member will contact you:
https://aws.amazon.com/contact-us/sales-support/?pg=ec2price&cta=herobtn

Lastly, your EC2 limit increase request was submitted to our internal service team for review.

Please note that it can take some time for the service team to review your request. This is to ensure that we can meet your needs while keeping existing infrastructure safe.

I will monitor your case and insist on regular updates until we are able to get this reviewed.

To save you from spam, I will provide you with an update once your request has been reviewed. Should you need anything at all during this time, then please let me know.

We value your feedback. Please share your experience by rating this and other correspondences in the AWS Support Center. You can rate a correspondence by selecting the stars in the top right corner of the correspondence.

Best regards,
Soraya K.
