Notes:

Note 1:Reclassification of Claims Submitted by Doctors

As can be observed, there has been a reclassification of certain claims submitted by doctors in relation to the corporate debtor. This reclassification is based on the terms and language of the respective contracts, along with the section under which Tax Deducted at Source (TDS) was applied to the payments made to the doctors. A legal opinion to the said effect has been obtained by the resolution professional.

It is informed that in cases where services were rendered in the capacity of a consultant, the individual is considered a service provider to the corporate debtor. As a result, these claims have been classified as operational debts, and the respective doctors are recognized as "Operational Creditors" under the relevant provisions. This classification is in accordance with the consultancy clause in the contract, which explicitly defines the nature of the services rendered.
