**Notes:**

1) Reclassification of Claims Submitted

As can be observed, there has been some reclassification claims submitted. This reclassification is based on the terms and language of the respective contracts, along with the section under which Tax Deducted at Source (TDS) was applied to the payments made to the respective claimant. A legal opinion to the said effect has been obtained by the resolution professional. It is informed that in cases where services were rendered in the capacity of a consultant, the individual is considered a service provider to the corporate debtor. As a result, these claims have been classified as operational debts, and the respective doctors are recognized as "Operational Creditors" under the relevant provisions. This classification is in accordance with the consultancy clause in the contract, which explicitly defines the nature of the services rendered.

2) All claims have been verified as on date of the list based on the information made available to the resolution professional by the corporate debtor and the claimant.
