3. Quarter-wise admission of CDs into CIRP is as under:

4. The distribution of stakeholders, who triggered CIRP, is presented in Table 2. Operational creditors (OCs) triggered 48.14 % of CIRPs, followed by financial creditors (FCs) at 45.80%, and remaining by the corporate debtors (CDs) and the Reserve Bank of India (RBI). Initially, CDs were prime users, as they perceived that they will be able to submit a resolution plan and control and management would remain unchanged. This perception changed with introduction of section 29A in November, 2017, prohibiting persons having certain disabilities from submitting resolution plans. Applications by FCs increased following the Banking Regulations (Amendment) Ordinance, 2017 which empowered the RBI in May, 2017 to direct banks to file applications for CIRP in case of default by a CD. It got a further boost in February, 2018 (since rescinded) when the RBI substituted all extant instructions on the resolution of stressed assets with a harmonized and simplified generic framework for resolution of stressed assets.
