About the Conference
The Micro, Small and Medium Enterprises play a vital role in the Indian economy. The sector is one of the major contributors to the socio-economic status of our country. The outbreak of Covid-19 pandemic has brought severe hardship to various sectors among which the most vulnerable and affected enterprises are MSMEs. A large number of MSMEs are facing financial stress and insolvency issues. Therefore, in order to promote the innovations from the grass root level, the need of the hour is to protect such MSMEs by making available adequate, low cost funds in a timely manner.

Considering the repayment abilities of the MSME sector, the Government has brought an amendment to the Insolvency and Bankruptcy Code (IBC) by inserting a new provision for pre-pack resolution scheme for MSMEs. This new scheme empowers the MSME corporate debtor to activate the bankruptcy process and is expected to come up with the solution/resolution in less time and lower expenses. It will also help the MSMEs to absorb and recover from the financial shock which they are facing during the ongoing covid-19 pandemic.

Apart from the insolvency issues, several other aspects are required to be deeply looked into, to enhance the overall structural framework, both from the legislative and regulatory side. This conference will provide a platform to discuss and disseminate the different aspects pertaining to legislative and regulatory framework of MSMEs. This intense academic discussion will help in identifying the correction needed so that the MSMEs continue to stand as a major support to Indian economy, even after the pandemic.

Inaugural Session
(11.00 – 12.00 hrs)

- Dr. Navrang Saini, Chairperson, Insolvency & Bankruptcy Board of India
